Minimum Wage Increase

Beginning January 1, 2007, California minimum wage will increase to \$7.50 per hour. Beginning January 1, 2008, the minimum wage will increase to \$8.00 per hour.

General Information

In general, California law conforms to the Internal Revenue Code (IRC) as of January 2005. However, there are continuing differences between California and federal law. When California conforms to federal tax law changes, we do not always adopt all of the changes made at the federal level. For more information regarding California and federal law, please visit our Website at www.ftb.ca.gov and search for **conformity**. Additional information can be found in FTB Pub. 1001, Supplemental Guidelines to California Adjustments, the instructions for California Schedule CA (540 or 540NR), and the Business Entity tax booklets.

Note, the instructions provided with California tax forms are a summary of California tax law and are only intended to aid taxpayers in preparing their state income tax returns. We include information that is most useful to the

greatest number of taxpayers in the limited space available. It is not possible to include all requirements of the California Revenue and Taxation Code (R&TC) in the tax booklets. Taxpayers should not consider the tax booklets as authoritative law.

Pass-Through Entities

For purposes of this booklet, the term "pass-through entity" refers to an S corporation, estate, trust, partnership, and limited liability company (LLC). References to "partnerships" include LLCs classified as partnerships.

Introduction

Economic Development Area Tax Incentives

California has established four types of economic development areas (EDAs) that have related tax incentives. These incentives have been established to stimulate growth and development in selected areas that are economically depressed. EDA tax incentives apply only to certain business transactions that are undertaken after an EDA has received final designation. Tax incentives are available to individuals and businesses operating or investing within the geographic boundaries of the following EDAs:

- Enterprise Zones (EZs)
- Local Agency Military Base Recovery Areas (LAMBRA)
- Manufacturing Enhancement Areas (MEAs)
- Targeted Tax Area (TTA)

Additional information on other EDAs can be found in the following FTB tax booklets:

- EZ tax incentives, get FTB 3805Z, Enterprise Zone Business Booklet;
- The MEA hiring credit, get FTB 3808, Manufacturing Enhancement Area Business Booklet; or
- TTA tax incentives, get FTB 3809, Targeted Tax Area Business Booklet.

Reporting Requirement

California statutes require the Franchise Tax Board (FTB) to provide information to the California Legislature regarding the number of businesses using the EDA tax incentives, types of EDA tax incentives being used, and the EDAs in which the businesses are claiming the tax incentives.

Complete items A through J on form FTB 3807, Local Agency Military Base Recovery Area Deduction and Credit Summary, as applicable. This information will be used to meet the FTB's statutory reporting requirement.

Purpose

This booklet provides specific information on the types of available LAMBRA tax incentives. Taxpayers investing or operating within a LAMBRA or located within a LAMBRA may

be eligible for the following credits and deductions:

- Hiring Credit
- Sales or Use Tax Credit
- Business Expense Deduction
- Net Operating Loss Carryover Deduction

Use this booklet to determine the correct amount of deductions and credits that the business may claim for operating or investing in a trade or business within a LAMBRA. Complete the worksheets in this booklet for each deduction or credit for which the business is eligible. Then enter the total deductions and credits on form FTB 3807.

- a. The governing body has notified the state of California that legal title to the parcels on the former military base has been transferred to the governing body; or in the case of early transfer authority, the terms and conditions for satisfying the requirements of environmental clean up on the military base have been met and regulatory closure has occurred; or
- b. The governing body has notified the state of California that vouchers have been issued to an employer that has entered into a lease or has received title to the property located within the LAMBRA.

If your business is located totally within a LAMBRA, within and outside a LAMBRA, or in more than one LAMBRA, see Part IV for instructions on how to apportion income.

However, if after the end of the second taxable year of operations within the LAMBRA a taxpayer does not fulfill the net increase in jobs requirement, recapture all LAMBRA business tax incentives claimed in prior years.

The net increase in jobs is computed on form FTB 3807.

Part I Net Increase in Jobs — FTB 3807, Side 1

Complete the Net Increase in Jobs Worksheet on the following pages only if you have been doing business in a LAMBRA for two years. Enter the results on form FTB 3807, Part I, line 1.

A taxpayer that conducts a trade or business within a LAMBRA and for the first two taxable years, has a net increase in jobs (defined as 2,000 paid hours per employee per year) of one or more employees in the LAMBRA, may claim certain economic incentives.

The net increase in jobs is determined by subtracting the total number of full-time employees in California prior to starting business in the LAMBRA, from the number of full-time employees in California in the second year after operation in the LAMBRA. For this purpose, the number of full-time employees for each year is determined as:

- The total number of hours worked in California by hourly employees (not to exceed 2,000 hours per employee) divided by 2,000; and
- The total number of months worked in California by salaried employees divided by 12.

If your only business in California began with your LAMBRA business, your number of California employees prior to starting business in the LAMBRA is zero.

If your business in California began during the taxable year, the first year employment information is prorated. Multiply the divisors 2,000 (hours for hourly employees) and 12 (months for salaried employees) by a fraction, the numerator is the number of months of doing business and the denominator is 12.

If your business has a net increase in jobs for the first two taxable years after commencing business operations in the LAMBRA, you must also employ one or more full-time employees within the LAMBRA in each of these years.

For this purpose, the number of full-time employees for each year is determined as:

- The total number of hours worked in the LAMBRA by hourly employees (not to exceed 2,000 hours per employee) divided by 2,000; and
- The total number of months worked in the LAMBRA by salaried employees divided by 12.

If your business in the LAMBRA began during the taxable year, the first year employment information is prorated. Multiply the divisors 2,000 (hours for hourly employees) and 12 (months for salaried employees) by a fraction. The numerator is the number of months of doing business and the denominator is 12.

Important! If your business does not have a net increase in jobs for the two taxable years after commencing business operations in the LAMBRA and employs one or more full-time employees within the LAMBRA in each of the first two years, recapture (in the current year) any LAMBRA credits or deductions that were previously taken.

Part II Credits and Recaptures

2a Hiring Credit

Employers conducting a trade or business within a LAMBRA may claim the hiring credit for hiring a qualified disadvantaged individual or a qualified displaced employee.

Qualified Disadvantaged Individual

A qualified disadvantaged individual is an individual who:

- Was hired after the LAMBRA received its final designation;
- Spends at least 90% of work time for the qualified employer on activities directly related to the conduct of a trade or business located within the LAMBRA; and
- Performs at least 50% of the work for the qualified employer within the boundaries of the LAMBRA.

For taxable years beginning on or after January 1, 1999, a qualified employee is:

- A civilian or military employee of a base or former base who has been displaced as a result of a federal base closure act; or
- Anyone who immediately before starting work for the employer was any of the following:
 1. A person who has been determined eligible for services under the federal Job Training Partnership Act (JTPA);
 2. A person eligible to be a voluntary or mandatory registrant under the Greater Avenues for Independence Act of 1985 (GAIN);
 3. An economically disadvantaged individual 16 years of age or older;
 4. A qualified dislocated worker;
 5. An individual who is enrolled in or has completed a state rehabilitation plan;
 6. A service-connected disabled veteran;
 7. A veteran of the Vietnam era;
 8. A veteran who recently separated from military service;
 9. An ex-offender;
 10. A person who is a recipient of:
 - Federal Supplemental Security Income (SSI) benefits;
 - Temporary Assistance for Needy Families (TANF);
 - Food stamps; or
 - State and local general assistance; or
 11. A Native American.

For additional information, refer to federal JTPA or its successor, the Workforce Investment Act (WIA).

Employers hiring qualified employees, get Form TCA EZ1 from the local agency responsible for verifying employee eligibility. Contact the local LAMBRA coordinator for more information on the local agency and verification process.

The percentage of wages used to compute the credit depends on the number of years the employee works for the employer in

the LAMBRA. The applicable percentage begins at 50% and declines 10% for each year of employment. After the fifth year of employment, no credit can be generated.

Qualified Wages

Qualified wages means the wages paid or incurred by the employer during the taxable year to a qualified disadvantaged individual or a qualified displaced employee that does not exceed 150% of the minimum wage. The wages must be paid or incurred on or after the designation date.

Wages that qualify for the hiring credit are those wages paid to a qualified employee for the consecutive 60-month period beginning on the first date the employee commenced employment with the employer. For an employer that operates a business that has regularly occurring seasonal or intermittent employment decreases and increases, reemployment of an individual is not a new hire; rather, it is a continuation of the prior employment and does not constitute commencement of employment for the qualified wages test. The qualified wages are the smaller of:

- The actual hourly rate paid or incurred by the business for work performed by the employee during the taxable year; or
- 150% of the minimum hourly wage established by the Industrial Welfare Commission.

Where the California minimum wage is higher than the federal minimum wage, the California minimum wage is used for purposes of computing the LAMBRA hiring credit. The current minimum wage is \$6.75 per hour. For purposes of computing the LAMBRA hiring credit, 150% of the minimum wage is \$10.12 per hour.

Example:

John Anderson was hired January 1, 2006. John's hourly rate for the first month was \$7.00. At the beginning of the second month, his hourly rate increased to \$8.00. In the third month, John's hourly rate increased to \$12.00. The hourly rate that qualifies for the credit is limited to 150% of the minimum wage, or currently \$10.12 per hour.

Month(s)	Hours per month	x	Hourly rate	=	Qualified wages per month
1	175		\$ 7.00		\$1,225.00
2	170		8.00		\$1,360.00
3	170		10.12		\$1,720.40

Record Keeping

Retain a copy of Form TCA EZ1 to substantiate an individual's eligibility as a "qualified employee." In addition, for each qualified employee, keep a schedule for the first 60 months of employment showing (at least):

- Employee's name;
- Date the employee was hired;
- Number of hours the employee worked for each month of employment;
- Smaller of the hourly rate of pay for each month of employment or 150% of the minimum wage;

- Total qualified wages per month for each month of employment;
- Records of any other federal or state subsidies you may have received for hiring the qualified employee; and
- Location of the employee's job site and duties performed.

2b Hiring Credit Recapture

Employers recapture (add back to the tax liability) the amount of credit attributable to an employee's wages if you terminate an employee at any time during the longer of:

- The first 270 days of employment (whether or not consecutive); or
- 90 days of employment plus 270 calendar days.

Employers of seasonal employees, recapture the amount of hiring credit attributable to the employee's wages if:

- The employer terminates the employee before the completion of 270 days of employment; and
- The 270 days is during the 60-month period beginning the day the employee commences employment with the employer.

A "day of employment" means any day the employee receives wage compensation (including a paid sick day, holiday, or vacation day).

Employers add to the current year's tax the amount of credit claimed in the year of termination and all prior years in which the credit was claimed for the terminated employee.

Note: The credit recapture does not apply if the termination of employment was:

- Voluntary on the part of the employee;
- In response to misconduct of the employee;
- Caused by the employee becoming disabled (unless the employee was able to return to work and the employer did not offer to reemploy the individual);
- Carried out so that other qualified individuals could be hired, creating a net increase in both the number of qualified employees and their hours worked; or
- Due to a substantial reduction in the employer's trade or business operations.

This credit is also subject to recapture if the net increase in jobs requirement is not met. See the instructions for form FTB 3807, Part I, Net Increase in Jobs, on page 3.

Instructions for Worksheet I — Hiring Credit and Recapture

Section A – Credit Computation

Line 1, column (a) – Enter the name of each qualified employee. Attach additional schedule(s) if necessary.

Line 1, column (b) through column (f) – Enter the qualified wages paid or incurred during the taxable year to each qualified employee listed in column (a) in the appropriate column.

Line 2, column (b) through column (f)

– Add the amount of qualified wages in each column.

Line 3, column (b) through column (f)

– Multiply the total in each column of line 2 by the percentage in each column.

Line 5 – The federal jobs tax credit to include on this line is the Work Opportunity Tax Credit (WOTC). Reduce the LAMBRA hiring credit by the amount of the WOTC claimed, based on the wages paid to individuals hired on or after January 1, 2006 and before January 1, 2007.

Note: No other California jobs tax credit may be claimed for the same wage expense paid to the employees shown in line 1, column (a).

Line 6 – For partnerships, enter the amount from line 6 on form FTB 3807, Side 1, Part II, line 2a. Also, include the current year hiring credit amount on Forms 565 and 568, Schedule K, line 14 and the distributive share of the credit to partners and members on Schedule K-1, line 14. In addition, add the entire amount of the credit on Schedule K, line 1, column (c).

For corporations, individuals, estates, and trusts, enter the amount from line 6 on Schedule Z, as follows:

- Part II, line 8B, column (b) for corporations, individuals, estates, and trusts;
- Part III, line 10, column (b) for S corporations; or
- Part IV, line 12, column (b) for corporations and S corporations subject to paying only the minimum franchise tax.

Credit Limitations

- The cumulative qualified wages used to compute the credit cannot exceed \$2,000,000. The limit applies for **each** taxable year, regardless of the number of qualified disadvantaged individuals employed.
- The amount of hiring credit claimed may not exceed the amount of tax on LAMBRA business income in any year. Use Schedule Z to compute the credit limitation.
- Any unused credit may be carried over and applied against the tax imposed on LAMBRA business income in future years until exhausted.
- Businesses reduce any deduction for wages by the amount of this credit.
- In the case where the business is qualified to take the LAMBRA hiring credit as well as another credit (e.g., enterprise zone, MEA, or TTA hiring credit) for the same wage expense, the business may only claim one credit.

- S corporations may claim only 1/3 of the LAMBRA hiring credit against the 1.5% entity-level tax (3.5% for financial S corporations.) S corporations can pass through 100% of the credit to their shareholders.
- S corporations reduce their wage deduction by 1/3 of the amount on Worksheet I, Section A, line 4 and on Form 100S, line 7. In addition, the S corporation must make an adjustment for the entire amount of the credit on Schedule K (100S), line 1, column (c).

Example: In 2006, an S corporation qualified for a \$3,000 LAMBRA hiring credit. The S corporation can claim a credit for \$1,000 and reduce its wage deduction by \$1,000 (\$3,000 X 1/3) on Form 100S, line 7. On Form 100S, Schedule K, line 1, column (c), the S corporation would add \$3,000 to the S corporation's ordinary income or loss to reflect the credit passed through to the shareholder(s).

For additional information about the treatment of credits for S corporations, see Part VI.

Section B Credit Recapture

(a) Terminated employee's name	(b) Recapture amount

2 Total amount of credit recapture. Add the amounts in column (b). See instructions for where to report on your California tax return.	2

Section B – Credit Recapture

Line 1, column (a) – Enter the name of the terminated employee. Attach additional schedule(s) if necessary.

Line 1, column (b) – Enter the amount of credit recapture for each employee listed in column (a).

Line 2 – Enter the amount from line 2, column (b) on form FTB 3807, Side 1, Part II, Line 2b.

Also include the amount of hiring credit recapture on your California tax return or schedule as follows:

- Form 100, Schedule J, line 5;
- Form 100S, Schedule J, line 5 and Schedule K-1 (100S), line 23;
- Form 100W, Schedule J, line 5;
- Form 109, Schedule K, line 4;
- Form 540, line 33;
- Long Form 540NR, line 41;
- Form 541, line 21b and Schedule K-1 (541), line 11e;
- Form 565, Schedule K, line 22 and Schedule K-1 (565), line 22; or
- Form 568, Schedule K, line 22 and Schedule K-1 (568), line 22.

Indicate that you included the hiring credit recapture on your tax return by writing “FTB 3807” in the space provided on the schedule or form.

Partnerships identify the recapture amounts for their partners and members on Schedule K-1 (565 or 568).

S corporation shareholders recapture the portion of the credit that was previously claimed, based on the terminated employee's wages. Also identify the recapture amount for shareholders on Schedule K-1 (100S). This amount will differ from the amount recaptured by the S corporation on Form 100S, Schedule J.

2c Sales or Use Tax Credit

Individuals, estates, trusts, and partnerships may claim a credit equal to the sales or use tax paid or incurred to purchase up to \$1 million of qualified property.

Corporations may claim a credit equal to the sales or use tax paid or incurred to purchase up to \$20 million of qualified property. Individuals who are S corporation shareholders may claim their pro-rata share of pass-through credit to the extent the S corporation paid or incurred the sales or use tax to purchase up to \$1 million of qualified property. See the example in the third column of this page.

The qualified property must be purchased and placed in service on or after the designation date, but before the expiration date of the LAMBRA. The sales or use tax must be paid or incurred on or after the designation date.

Qualified property is:

- High technology equipment, such as computers and electronic processing equipment;

- Aircraft maintenance equipment, such as engine stands, hydraulic mules, power carts, test equipment, handtools, aircraft start carts, and tugs;
- Aircraft components, such as engines, fuel control units, hydraulic pumps, avionics, starts, wheels, and tires; and
- IRC Section 1245 property.

The business must use the property **exclusively** within the boundaries of the LAMBRA.

The use tax paid or incurred on purchases of property manufactured outside of California qualifies for the credit only if property of a comparable quality and price was not available for timely purchase and delivery from a California manufacturer.

Leased Property

The sales tax paid or incurred on qualified property being purchased using a financial (conditional sales) contract qualifies for the sales or use tax credit.

To determine whether the lease qualifies as a purchase rather than a true lease, see Revenue Ruling 55-540, 1955-2 C.B. 39, and FTB Legal Ruling 94-2, March 23, 1994.

Credit Limitations

- The amount of sales or use tax credit claimed may not exceed the amount of tax on the LAMBRA business income in any year. After completing Worksheet II, use Schedule Z to compute the credit limitation.
- Any unused credit may be carried over and applied against the tax on LAMBRA business income in future years until exhausted. In the case of an S corporation, 2/3 of the credit is lost and the remaining 1/3 can be carried over if it cannot be used in the current year.

For additional information about the treatment of credits for S corporations, see Part VI.

Depreciation

Any taxpayer that elects to claim this credit cannot increase the basis of the qualified property by the sales or use tax paid or incurred in connection with the purchase of qualified property.

Example:

XYZ Inc., an S corporation, purchases qualified property for \$20 million (\$20 m.). The sales tax rate is 6% (.06) and the entity-level tax rate is 1.5% (.015).

The credit allowed XYZ Inc. and the depreciable basis of the qualified property for XYZ Inc. are computed as follows:

Facts	Depreciable basis
Qualified property	\$20 m.
Sales tax paid (\$20 m. x .06)	+1.2 m.
Sales or use tax credit allowed XYZ Inc.	(1.2 m.)
Depreciable basis of qualified property for XYZ Inc.	\$20 m.
Credit allowed to offset the entity-level tax (\$1.2 m. x 1/3)	\$0.4 m.

XYZ Inc. has two 50% shareholders. The credit allowed the shareholders and the depreciable basis of the qualified property for the shareholders are computed as follows:

Facts	Depreciable basis
Qualified property (purchased by XYZ Inc.)	\$20 m.
Sales tax paid (\$20 m. x .06)	+1.2 m.
Maximum qualified costs for sales or use tax credit is 1m.	
Sales or use tax credit allowed the shareholders (\$1 m. x .06)	(.06 m)
Depreciable basis of qualified property for the shareholders	\$21.14 m.
Total amount of credit allowed the shareholders	.06 m.

Note: Each shareholder is allowed a \$30,000 (.06 m. ÷ 2 = .03 m.) sales or use tax credit.

To compute the difference between California and federal depreciation, use the following forms and schedules:

- Form 100 and Form 100W filers – FTB 3885, Corporation Depreciation and Amortization;
- Form 100S filers – Schedule B (100S), S Corporation Depreciation and Amortization;
- Form 109 filers – Form 109, Schedule J, Depreciation;
- Exempt trusts use form FTB 3885F, Depreciation and Amortization;
- Form 540 and Long 540NR filers – FTB 3885A, Depreciation and Amortization – Individuals;
- Form 541 filers – FTB 3885F, Depreciation and Amortization Fiduciaries;
- Form 565 filers – FTB 3885P, Depreciation and Amortization Partnerships; or
- Form 568 filers – FTB 3885L, Depreciation and Amortization Limited Liability Companies.

Record Keeping

To support the sales or use tax credit claimed, keep all records that document the purchase of the qualified property, such as the sales receipt and proof of payment. Additionally, keep all records that identify or describe:

- The property purchased (such as serial numbers, etc.);
- The amount of sales or use tax paid or incurred on its purchase;
- The location where it is used; and
- If purchased from a manufacturer located outside California, records to substantiate that property of comparable quality and price was not timely available for purchase in California.

2d Sales or Use Tax Credit Recapture

The sales or use tax credit is subject to recapture (added back to tax liability) if, before the close of the second taxable year after the property was placed in service, it is disposed of or is no longer used exclusively in the LAMBRA trade or business. In that case, the credit amount for that property is added to the tax in the current taxable year.

This credit is also subject to recapture if the net increase in jobs requirement is not met. See the instructions for Net Increase in Jobs, on page 3.

Section B Credit Recapture

Partnerships identify the recapture amounts for partners and members on Schedule K-1 (565 or 568).

S corporations and their shareholders recapture the portion of credit that was previously claimed. S corporations also identify the recapture amount for shareholders on Schedule K-1 (100S). This amount will differ from the amount recaptured by the S corporation on Form 100S, Schedule J.

Part III Business Expense Deduction

A trade or business operating within a LAMBRA may **elect** to treat 40% of the eligible cost of qualified property as a business expense rather than a capital expense. For the year the property is placed in service, the business may deduct the cost (subject to limitations) in that year rather than depreciate it over several years. The qualified property must be purchased and placed in service on or after the designation date, but before the expiration date of the LAMBRA.

Note: The LAMBRA business expense deduction is not allowed for estates or trusts.

Qualified property is any recovery property that is IRC Section 1245 property, which includes, but is not limited to, tangible personal property (excluding buildings), most equipment, and most furnishings acquired by purchase after the LAMBRA received its final designation and before the designation expires for exclusive use within a LAMBRA. Office supplies and other small nondepreciable items are not included.

The maximum aggregate cost of the qualified property against which the 40% deduction may be claimed in any taxable year is determined by a reference to the number of taxable years that have elapsed since the LAMBRA received its final designation. See page 2, for the designation dates.

The maximum aggregate cost is:

Taxable year of designation	\$100,000
1st taxable year after designation	100,000
2nd taxable year after designation	75,000
3rd taxable year after designation	75,000
Each remaining taxable year after designation	50,000

Election

The business must elect to treat the cost of qualified property as a business expense in the year the property is first placed in service. However, this deduction is not allowed if the property was:

- Transferred between members of an affiliated group;
- Acquired as a gift or inherited;
- Traded for other property;
- Received from a personal or business relation as defined in IRC Section 267 or 707(b); or
- Described in IRC Section 168(f).

The LAMBRA business expense deduction must be claimed by making an election on the original filed return, and thus cannot be claimed on an amended return. Such an election cannot be revoked without the written consent of the FTB.

A husband and wife filing separate returns may each claim 1/2 of the allowable deduction. In the case of a partnership, the dollar limitation applies to the partnership and to each partner. Each partner's business expense deduction passed through from the partnership is based on his/her allocable share of the allowable deduction.

Depreciation

Corporations may not claim the additional first-year depreciation allowed under R&TC Section 24356 on any item of property if any portion of it was deducted as a LAMBRA business expense. All other taxpayers cannot claim the deduction allowed under IRC Section 179 on any item of property if any portion of it was deducted as a LAMBRA business expense.

To compute the difference between California and federal depreciation, use the forms and schedules listed on page 9, column 3.

- Form 568, Schedule K, line 9 and Schedule K-1 (568), line 9.

Section B – Deduction Recapture

The deduction is subject to recapture (added back to income) if, before the close of the second taxable year after the property was placed in service, the property is sold, disposed of, or no longer used exclusively in the LAMBRA trade or business.

This deduction is also subject to recapture if the net increase in jobs requirement is not met. See the instructions for Net Increase in Jobs on page 4.

Income Adjustment

Add to current year income the amount previously deducted for the property.

Basis Adjustment

As of the first day of the taxable year in which the recapture event occurs, the recapture amount is added back to the basis of the property in the year of recapture and then depreciated over the remaining life of the qualified property.

Line 1, column (a) – Enter a description of the property. Attach additional schedule(s) if necessary.

Line 1, column (b) – Enter the amount of the business expense deduction claimed for each property listed in column (a).

Line 2 – Enter the total here, on form FTB 3807, Side 1, Part III, line 3b, and on your California tax return or schedule as follows:

- Form 100, line 15, as a negative amount;
- Form 100S, line 12, as a negative amount, Form 100S, Schedule K, line 6 and Schedule K-1 (100S), line 6;
- Form 100W, line 15, as a negative amount;
- Form 109, Part I, line 11;
- Schedule CA (540), column C, on the applicable line for your activity;
- Schedule CA (540NR), column C, on the applicable line for your activity;
- Form 565, Schedule K, line 7 and Schedule K-1 (565), line 7; or
- Form 568, Schedule K, line 7 and Schedule K-1 (568), line 7.

Example:

XYZ Inc. purchased a property on June 1, 2004, that qualified the corporation to take the LAMBRA business expense deduction. The property was purchased for \$10,000 and had a useful life of five years. XYZ Inc.'s tax year ends December 31 of each year. The corporation had a business expense deduction of \$4,000 for the tax year ending December 31, 2004, on the property.

Assume the corporation disposes of the property or no longer uses the property in the LAMBRA on August 5, 2006. The property was placed in service in 2004. The first year after the property was placed in service was the 2005 tax year. The second year after the

property was placed in service was the 2006 tax year. Since the property was disposed of or no longer used in the LAMBRA before the end of the second year (December 31, 2006) after the year the property was placed in service, the business expense deduction (\$4,000) must be added to income in the 2006 tax year. If the property was disposed of or no longer used in the LAMBRA after December 31, 2006, there is no recapture.

Situation 1

Assume on August 5, 2006, the corporation sells the asset. To compute the gain or loss on the sale, the basis of the asset is increased by the recapture amount of \$4,000.

Situation 2

Assume on August 5, 2006, the corporation discontinues using the property in the zone, but does not sell the asset. To compute depreciation on the asset, the recapture amount is added to the remaining basis of the

asset, and depreciation is then computed over the remainder of the useful life of the asset.

Assuming straight line depreciation is used, the corporation will recognize \$2,833 (\$8,500/3) in depreciation expense in 2006. (\$8,500 is arrived at by adding the \$4,000 recapture amount to the \$4,500 remaining basis as of December 31, 2005)

Part IV Doing Business Totally Within a LAMBRA, Within and Outside a LAMBRA, or in More Than One LAMBRA

LAMBRA business tax credits, deductions and NOLs are limited to the tax on business income attributable to operations within the LAMBRA respectively. If the business is located within and outside a LAMBRA or in more than one LAMBRA, determine the portion of total business operations that are attributable to each LAMBRA.

Business Income vs. Nonbusiness Income

Business income is defined as income arising from transactions and activities in the regular course of the trade or business. Business income includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations. Nonbusiness income is all income other than business income. See Cal. Code Regs., tit. 18 section 25120 for further references and examples of nonbusiness income.

For an individual, business income includes but is not limited to California business income or loss from Schedules C, D, D-1 (or federal Form 4797, Sales of Business Property, in lieu of a Schedule D-1), E, and F, as well as wages. Be sure to include casualty losses, disaster losses, and any business deductions reported on federal Form 1040 Schedule A as itemized deductions.

Generally, all income which arises from the conduct of trade or business operations of a taxpayer is business income.

Note: If you elected to carry back part or all of your current year disaster loss under IRC Section 165(i)(1), do not include the amount of the loss that was carried back in your current year business income for the LAMBRA.

Pass-through entities report to their shareholders, beneficiaries, partners, and members:

1. The distributive (or pro-rata for S corporations) share of the business income apportioned to the LAMBRA; and
2. The distributive (or pro-rata for S corporations) share of the business capital gains and losses apportioned to the LAMBRA included in item 1.

These items should be reported using the appropriate California schedules listed below:

- Schedule K-1 (100S), line 23;
- Schedule K-1 (541), line 11e;
- Schedule K-1 (565), line 22; or
- Schedule K-1 (568), line 22.

Form 540 and Long Form 540NR filers within the LAMBRA, refer to Worksheet IV, Section C to compute business income apportioned to the LAMBRA.

For business entities, including sole proprietors, use Worksheet IV, Section A or B to compute business income/loss apportioned to the LAMBRA.

Apportionment

Business income is apportioned to the LAMBRA by multiplying the total California business income of the taxpayer by a fraction. The numerator is the property factor plus the payroll factor, and the denominator is two. Loss is apportioned to the LAMBRA by multiplying the taxpayer's net business operating loss from all sources by a fraction. The numerator is the property factor plus the payroll factor, and the denominator is two. If an employer conducts a business in more than one LAMBRA, the LAMBRA apportionment factor and credit limitations are computed separately for each LAMBRA.

Property Factor

Property is defined as the average value of all real and tangible personal property owned or rented by the business and used during the taxable year to produce business income.

Note: Property is included in the factor if it could be used during the taxable year.

Property owned by the business is valued at its original cost. Original cost is the basis of the property for federal income tax purposes (prior to any federal adjustment) at the time of acquisition by the business, adjusted for subsequent capital additions or improvements and partial dispositions because of sale or exchange. Allowance for depreciation is not considered.

Rented property is valued at eight times the net annual rental rate. The net annual rental rate for any item of rented property is the total rent paid for the property, less aggregate annual subrental rates paid by subtenants.

When determining income or loss apportionment on Worksheet IV, Section A or B, the numerator of the property factor is the average value of real and tangible personal property owned or rented by the business and used within the LAMBRA during the taxable year to produce LAMBRA business income. See Worksheet IV, Section A/B, column (b).

When determining income apportionment on Worksheet IV, Section A, the denominator of the property factor is the total average value of all real and tangible personal property owned or rented and used during the taxable year within California. See Worksheet IV, Section A, column (a).

When determining loss apportionment on Worksheet IV, Section B, the denominator of the property factor is the total average value of all the taxpayer's real and tangible personal property owned or rented and used during the taxable year to produce business income within and outside the LAMBRA. See Worksheet IV, Section B, column (a).

Payroll Factor

Payroll is defined as the total amount paid to the business's employees as compensation for

the production of business income during the taxable year.

Compensation means wages, salaries, commissions, and any other form of remuneration paid directly to employees for personal services. Payments made to independent contractors or any other person not properly classified as an employee are excluded.

Compensation Within the LAMBRA

Compensation is considered to be within the LAMBRA if any one of the following conditions is met:

1. The employee services are performed within the geographical boundaries of the LAMBRA.
2. The employee services are performed within and outside the LAMBRA, but the services performed outside the LAMBRA are incidental to the employee services within the LAMBRA.
Incidental means any temporary or transitory service performed in connection with an isolated transaction.
3. If employee services are performed within and outside the LAMBRA, employee compensation is attributed to the LAMBRA if:
 - A. The employee's base of operations is within the LAMBRA; or
 - B. There is no base of operations in any other part of the state in which some part of the service is performed, and the place from which the service is directed or controlled is within the LAMBRA; or
 - C. The base of operations or the place from which the service is directed or controlled is not in any other part of the state in which some part of the service is performed and the employee's residence is within the LAMBRA.

Base of operations is the permanent place from which employees start work and customarily return in order to receive instruction from the taxpayer or communications from their customers or other persons; to replenish stock or other material; to repair equipment; or to perform any other functions necessary in the exercise of their trade or profession at some other point or points.

When determining income or loss apportionment on Worksheet IV, Section A or B, the numerator of the payroll factor is the taxpayer's total compensation paid to employees for working within the LAMBRA during the taxable year. See Worksheet IV, Section A/B, column (b).

When determining income apportionment on Worksheet IV, Section A, the denominator of the payroll factor is the total taxpayer's compensation paid to employees working in California. See Worksheet IV, Section A, column (a).

When determining loss apportionment on Worksheet IV, Section B, the denominator of the payroll factor is the taxpayer's total

compensation paid to employees working in all business operation locations. See Worksheet IV, Section B, column (a).

Corporations which file a combined report

Business income for each corporation doing business in a LAMBRA will be its business income apportioned to California (see FTB Pub. 1061 for further information on combined reports and entity income apportionment). LAMBRA property and payroll factors used in the determination of LAMBRA business income includes only the taxpayer's California amounts in the denominator.

Example: Computation of LAMBRA business income apportioned to each entity operating within the LAMBRA

Parent Corporation A has two subsidiaries, B and C. Corporations A and B operate within the LAMBRA. The combined group operates within and outside California and apportions its income to California using Schedule R. Assume the combined group's business income apportioned to California was \$1,000,000 and Corporation A's and B's share of California business income is \$228,000 and \$250,000, respectively. Corporation A's and B's separate LAMBRA and separate California property and payroll factor amounts are shown as follows.

Business income apportioned to the LAMBRA was determined as follows:

	A	B
Property Factor		
LAMBRA property	\$1,000,000	\$ 800,000
California property	\$1,000,000	\$1,200,000
Apportionment %	100%	66.66%
Payroll Factor		
LAMBRA payroll	\$ 800,000	\$ 800,000
California payroll	\$ 800,000	\$1,000,000
Apportionment %	100%	80%
Average Apportionment %	100%	73.33%
<i>(Property + Payroll Factors)</i>		
2		
Apportioned Business Income	\$ 228,000	\$ 250,000
LAMBRA business Income	<u>\$ 228,000</u>	<u>\$ 183,325</u>
<i>(Average Apportionment %</i>		
<i>X California Business Income)</i>		

Instructions for Worksheet IV

Note: If the business operates solely within a single LAMBRA and all its property and payroll are solely within that single LAMBRA, enter 100% (1.00) on Section A, line 4, column (c) and Section B, line 4, column (c). Do not complete the rest of Worksheet IV.

Section A – Income Apportionment

Use Worksheet IV, Section A, Income Apportionment, to determine the amount of business income apportioned to the LAMBRA. The apportioned LAMBRA business income determines the amount of the tax incentives that can be used.

Only California source business income is apportioned to the LAMBRA. A taxpayer's LAMBRA business income is its California apportioned business income multiplied by the specific LAMBRA apportionment percentage.

The LAMBRA property and payroll factors used in the determination of apportionable business income include only the taxpayer's California amounts in the denominator.

Section B – Loss Apportionment

Use Worksheet IV, Section B, Loss Apportionment, to determine your net operating loss apportioned to the LAMBRA. A taxpayer's LAMBRA net operating loss is its net business operating loss from all

Also, those factors with zero balances in the totals of column (a) will not be included in the computation of the average apportionment percentage. For example, if the taxpayer does not have any payroll within or outside the LAMBRA, then the average apportionment percentage would be computed by dividing line 3 by one instead of by two as normally instructed.

sources multiplied by the specific LAMBRA apportionment percentage computed in Worksheet IV, Section B.

The LAMBRA property and payroll factors used in the determination of the apportioned business net operating loss include worldwide amounts in the denominator.

Section C – Income or Loss

Form 540 and Form 540NR filers, use Worksheet IV, Section C to determine the amount to enter on:

- Worksheet V, Section A, line 1;
- Worksheet V, Section C, line 1 and line 6; and
- Schedule Z, Part I, line 1 and line 3.

Do not include disaster losses in any amounts used in the table.

Only California source business income is apportioned to the LAMBRA. A taxpayer's LAMBRA business income is its California apportioned business income computed using Schedule R, multiplied by the specific LAMBRA apportionment percentage computed using Worksheet IV, Section A.

The first step is to determine which portion of the taxpayer's net income is "business income" and which portion is "nonbusiness income." Only business income is apportioned to the LAMBRA. See Part IV, Doing Business Totally Within a LAMBRA, Within and Outside a LAMBRA, or in More Than One LAMBRA, for a complete discussion of business and nonbusiness income.

Business income or loss reported on Schedules C, C-EZ, E, and F, and other schedules are reported on line 6 through line 9. Line 11 and line 12 report business gains or losses reported on Schedule D and Schedule D-1. All business income and losses should be adjusted for any differences between California and federal amounts as shown on the Schedule CA (540 or 540NR).

Part I Individual Income and Expense Items

Wages

Taxpayers with wages from a company located within and outside a LAMBRA must determine the LAMBRA wage income by entering the percentage of their time that

they worked within the LAMBRA in column (b). The percentage of time should be for the same period the wages entered on line 1 were earned. This percentage must be determined based on their record of time and events such as a travel log or entries in a daily planner.

Part II Pass-Through Income or Loss

Multiple Pass-Through Entities

If you are a shareholder, beneficiary, partner, or member in multiple pass-through entities with businesses located within and outside a LAMBRA from which you received LAMBRA business tax incentives, see the example below for computing business income in the LAMBRA.

Example:

Pass-through entity	Trade or business income from Schedule K-1 (100S, 541, 565, or 568)	Entity's LAMBRA apportionment percentage	LAMBRA apportioned income
ABC, Inc.	\$40,000	80%	\$32,000
A, B, & C	30,000	10%	3,000
ABC, LLC	10,000	50%	5,000
Total			\$40,000

Also, those factors with zero balances in the totals of column (a) will not be included in the computation of the average apportionment percentage. For example, if the taxpayer does not have any payroll within or outside the LAMBRA, then the average apportionment percentage would be computed by dividing line 3 by one instead of by two as normally instructed.

Part III Taxpayer's Trade or Business**Business Income or Loss**

Use business income or loss from federal Form 1040 Schedules C, C-EZ, E, and F, plus California adjustments from Schedule CA (540 or 540NR) for each trade or business. Also include business capital gains and losses from Schedule D and business gains and losses from Schedule D-1 as adjusted on Schedule CA (540 or 540NR).

Located Within and Outside the LAMBRA and California

Line 6 – Line 9: If your business operation reported on Schedule C, C-EZ, E, or F, or other schedule is within and outside the LAMBRA and California, get Schedule R and complete line 1 through line 18b and line 27 through line 31. Nonresidents who have an apportioning business that operates within the LAMBRA should have already computed Schedule R, and can use those amounts when that schedule is referenced.

Residents complete a Schedule R in order to determine their California source business income for purposes of the LAMBRA credit computation.

Line 11 and Line 12: If the gain or loss reported on Schedule D or Schedule D-1 as adjusted on Schedule CA (540 or 540NR) was attributed to an asset used in an activity conducted within and outside a LAMBRA and California, get Schedule R and complete Schedule R-1. Multiply the gain or loss reported by the percentage on Schedule R-1, line 5 and enter the result in column (a). To determine the apportionment percentage in column (b), complete Worksheet IV, Section A. Enter the percentage from Worksheet IV, Section A, line 4, column (c) on Worksheet IV, Section C, column (b).

Line 14 – If you are computing the LAMBRA NOL and the result on the Income or Loss Worksheet, line 14, column (c) is a **negative** amount, enter this amount on Worksheet V, Section A, line 1.

Note: If the amount is positive, you do not have a LAMBRA NOL.

If you are computing the LAMBRA business income and the result on the Income or Loss Worksheet, line 14, column (c) is a positive amount and:

- You have LAMBRA NOL carryovers, enter the amount on Worksheet V, Section C, line 1 and line 6 (skip line 2 through line 5). Also enter the amount from Worksheet IV, line 14, column (c) on Schedule Z, Part I, line 1 and line 3 (skip line 2) if you have LAMBRA credits; or
- You do not have LAMBRA NOL carryovers but you do have LAMBRA credits or credit carryovers, enter the amount on Schedule Z, line 1 and line 3 (skip line 2).

Note: If the amount is negative, you do not have any business income attributable to the LAMBRA and you cannot utilize any LAMBRA NOL carryover, credit(s), or credit carryover(s) in the current taxable year.

Loss Computation

To compute the NOL for Worksheet V, Section A, complete Worksheet IV, Section C. The following instructions refer to Worksheet IV, Section C.

To determine the apportionment percentage in column (b), complete Worksheet IV, Section B. Enter the percentage from Worksheet IV, Section B, line 4, column (c) on Worksheet IV, Section C, column (b).

Line 14 – See line 14 under Income Computation.

Part V Net Operating Loss (NOL) Computation and Loss Limitations

For taxable years beginning on or after January 1, 2004, California has reinstated the Net Operating Loss (NOL) carryover deductions. The carryover periods for an NOL incurred in years:

- beginning before January 1, 2002, have been extended for two years.
- beginning on or after January 1, 2002, and before January 1, 2003, have been extended for one year.

For taxable years beginning on or after January 1, 2004, 100% of the NOL may be carried forward. For more information, get forms FTB 3805V and 3805Q.

An NOL generated by a business that operates or invests within a LAMBRA can be carried forward for 15 years but cannot be carried back. Financial institutions using the bad debt reserve method may carry over the loss for a maximum of five taxable years. In addition, up to 100% of the NOL generated in a LAMBRA can be carried forward.

The business cannot generate NOLs from activities within the LAMBRA area before the first taxable year beginning on or after the date the LAMBRA is officially designated.

Limitation

A LAMBRA NOL deduction can offset only business income attributable to operations within the LAMBRA.

Election

Elect and designate the carryover category (general or specific, enterprise zone, LAMBRA, TTA, or Pierce's disease NOL) on the original return for the year of a loss and file form FTB 3807 for each year in which a LAMBRA NOL deduction is being taken. The election is **irrevocable**.

Note: If you elect the LAMBRA NOL deduction, you are prohibited by law from carrying over any other type of NOL, from this year.

To determine which type of NOL will provide the greater benefit, taxpayers that have general or specific, enterprise zone, LAMBRA, TTA, NOL or that may qualify for the special NOL treatment should estimate future income and complete Worksheet V and the following forms or worksheets if applicable:

- FTB 3805V, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations — Individuals, Estates, and Trusts;
- FTB 3805Q, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations — Corporations;
- FTB 3805Z, Enterprise Zone Business Booklet, Schedule Z; or
- FTB 3809, Targeted Tax Area Business Booklet, Worksheet V.

Alternative Minimum Tax

Taxpayers claiming a LAMBRA NOL deduction, determine your NOL for alternative minimum tax (AMT) purposes. Use Schedule P (100, 100W, 540, 540NR, or 541) to compute the NOL for AMT purposes.

S Corporations

LAMBRA NOLs incurred prior to becoming an S corporation cannot be used against S corporation income. See IRC Section 1371(b).

However, an S corporation is allowed to deduct a LAMBRA NOL incurred after the "S" election is made. An S corporation may use the NOL as a deduction against income subject to the 1.5% entity-level tax (3.5% for financial S corporations). The expenses (and income) giving rise to the loss are also passed through to the shareholders in the year the loss is incurred.

NOL Carryover Amount — Businesses Operating Totally Within the LAMBRA

For calendar and fiscal year taxpayers with all payroll and property within a LAMBRA, the NOL carryover is determined by computing the business loss that results from business activity in the LAMBRA.

NOL Carryover Amount — Businesses Operating Totally Within and Outside the LAMBRA

If the business is located within and outside or in more than one LAMBRA, the loss amount available for carryover is determined by apportioning the total business loss of the entity attributable to the LAMBRA pursuant to the provisions of R&TC Chapter 17 (commencing with Section 25101) with certain modifications to the apportioning factors. The apportionment factors include the property and payroll factors, and they compare the LAMBRA property and payroll to total property and payroll. The loss calculation is done on Worksheet V, Section A for individuals and exempt trusts, and Worksheet V, Section B for corporations. The apportionment factor calculation is done on Worksheet IV, Section B for business entities and Worksheet IV, Section C for individuals. The loss carryover is deducted against income apportioned by each business to the LAMBRA in subsequent years. This calculation is done on Worksheet V, Section C.

Corporations that are members of a unitary group filing a combined report, separately compute the loss carryover for each corporation in the group (R&TC Section 25108) using their individual apportionment factors. Unlike the NOL treatment on a federal consolidated return, a loss carryover for one member included in a combined report may not be applied to the intrastate apportioned income of another member included in a combined report.

For any water's-edge taxpayer, R&TC Section 24416(c) imposes a limitation on the NOL deduction if the NOL is generated during a non-water's edge tax year. The NOL carryover is limited to the lesser of the NOL or the re-computed NOL. The re-computed

NOL carryover is determined by computing the income and factors of the original worldwide combined reporting group, as if the water's-edge election had been in force for the year of the loss. R&TC Section 24416(c) serves as a limitation. If this section applies, the NOL carryover for each corporation may only be decreased, not increased.

Instructions for Worksheet V — NOL Computation and Loss Limitations

Individuals and exempt trusts with a current year loss complete Section A. Corporations with a current year loss complete Section B. Individuals, exempt trusts, and corporations with current year income and a prior year LAMBRA NOL carryover complete Section C.

Section A — Computation of Current Year NOL — Individuals and Exempt Trusts

Use this section to compute the LAMBRA NOL to be carried over to future years by individuals and exempt trusts. Complete Section A only if you have a current year loss.

Complete form FTB 3805V, Net Operating Loss (NOL) Computation and NOL and Disaster Loss Limitations — Individuals, Estates and Trusts, before you compute the allowable LAMBRA loss.

To compute the LAMBRA NOL, separate business income and deductions from nonbusiness income and deductions. See Part IV for a complete discussion of business and nonbusiness income.

Section B — Computation of Current Year NOL — Corporations

Use this section to compute the LAMBRA NOL to be carried over to future years for corporations. Complete Section B only if the corporation has a current year loss.

You must complete form FTB 3805Q, Net Operating Loss (NOL) Computation and NOL

and Disaster Loss Limitations — Corporations, before you can compute the allowable LAMBRA loss.

Section C — Computation of NOL Carryover and Carryover Limitations — Individuals, Exempt Trusts, and Corporations

A LAMBRA NOL deduction can offset only business income attributable to operations within the LAMBRA. Use this worksheet to compute the LAMBRA NOL deduction for corporations, individuals, and exempt trusts

Line 1 — See Part IV for a complete discussion of business and nonbusiness income.

Note to Form 540 and Form 540NR filers:

Be sure to include casualty losses, disaster losses, and any business deductions reported on Schedule A as itemized deductions.

Exception: If you elected to carry back part or all of your current year disaster loss under IRC Section 165(i)(1), do not include the amount of loss that was carried back in your current year business income for the LAMBRA.

Line 2 — In modifying your income, deduct your capital losses only up to your capital gains. Enter as a positive number any net capital losses included in line 1.

Line 3 — Corporations reduce income by the disaster loss deduction and the deduction for excess net passive income.

Line 6 — This is your modified taxable income (MTI). Reduce this amount by your LAMBRA NOL deduction. The LAMBRA NOL deduction may not be larger than your MTI. If your MTI is a loss in the current year or if it limits the amount of NOL you may use this year, carry over the NOL to future years.

Line 7 — Enter the amount from line 6 in column (d). If this amount is zero or negative, transfer the amounts from line 8 through line 11, column (b) to column (e). Go to line 12.

- Schedule CA (540NR), line 21e, column B.

Part VI Computation of Credit Limitations

Credit Limitations

The amount of credit you can claim on your California tax return is limited by the amount of tax attributable to LAMBRA business income. Use Schedule Z on form FTB 3807, Side 2 to compute this limitation.

If a taxpayer owns an interest in a disregarded business entity, the amount of credit that can be utilized is limited to the difference between the taxpayer's regular tax computed with the income of the disregarded entity, and the taxpayer's regular tax computed without the income of the disregarded entity.

Partnerships allocate the credit among the partners according to the partner's distributive share as determined in a written partnership agreement. See R&TC Section 17039(e).

Credits you are otherwise eligible to claim may be limited. Do not apply credits against the minimum franchise tax (corporations and S corporations), the annual tax (partnerships, LLCs classified as partnerships, and QSub), the alternative minimum tax (corporations, exempt organizations, individuals, and fiduciaries), the built-in gains tax (S corporations), or the excess net passive income tax (S corporations).

Refer to the credit instructions in your tax booklet for more information.

S Corporations and the Application of LAMBRA Credits

An S corporation may use its LAMBRA credits to reduce LAMBRA business tax both at the corporate and shareholder levels. An S corporation may use 1/3 of the LAMBRA credits to reduce the tax on the S corporation's LAMBRA business income. In addition, S corporation shareholders may claim their pro-rata share of the entire amount of the LAMBRA credits computed under the Personal Income Tax Law.

Example: In 2006, an S corporation qualified for a \$3,000 LAMBRA hiring credit. The S corporation will be able to use 1/3 of the credit ($\$3,000 \times 1/3 = \$1,000$) to offset the tax on the corporation's LAMBRA business income. The S corporation will also pass through a \$3,000 credit to its shareholders to offset their individual tax (computed under the Personal Income Tax Law) on LAMBRA business income.

S corporations should attach form FTB 3807 to Form 100S, California S Corporation Franchise or Income Tax Return, to claim the tax credits.

Shareholders should attach Schedule(s) K-1 (100S), Shareholder's Share of Income, Deductions, Credits, etc., to their individual tax return.

Carryover

If the amount of credit available this year exceeds your LAMBRA business tax, you may carryover any excess credit to future years until exhausted. Apply the carryover to the earliest taxable year possible. In no event can the credit be carried back and applied against a prior year's tax or transferred to another taxpayer.

For S corporations, the amount of the 1/3 credit that is in excess of the 1.5% entity-level tax (3.5% for financial S corporations) in the current year may also be carried forward and used in future years to offset the 1.5% entity-level tax (3.5% for financial S corporations). See the instructions for Schedule Z, Part III for more information.

Credit Code Number

Use credit code number **198** to claim the LAMBRA hiring and sales or use tax credits. Using an incorrect code number may cause a delay in allowing the credit(s).

Instructions for Schedule Z — Computation of Credit Limitations

Reporting Requirements of S Corporations, Estates, Trusts, and Partnerships

• Partnerships

Do not complete Schedule Z. However, the partners and members of these types of entities should complete Schedule Z in order to determine the amount of LAMBRA credits that they may claim on their California tax returns.

- S corporations and their shareholders complete Schedule Z.
- Report to shareholders, beneficiaries, partners, and members, the distributive or pro-rata share of business income, loss, and deductions apportioned to the LAMBRA; and
- Separately state the distributive or pro-rata share of any business capital gains and losses apportioned to the LAMBRA included in the amount above.

S Corporations

Complete Part I and Part III of Schedule Z if your entity-level tax before credits is more than the minimum franchise tax.

Corporations and S Corporations subject to the minimum franchise tax only

Complete only Part IV of Schedule Z.

All others: Complete Part I and Part II of Schedule Z.

Part I

Note: For filers with NOLs or NOL carryovers.

- Complete Worksheet V first if you have a current year NOL or an NOL carryover.
- Then complete Schedule Z if you have any LAMBRA credits.

If you do not have a current year NOL or any NOL carryovers:

- Individuals: Go to Worksheet IV, Section C. Follow the worksheet instructions. Enter the amount from Worksheet IV, Section C, line 14, column (c) on Schedule Z, Part I, line 1 and line 3 (skip line 2).
- Corporations: Follow the instructions for line 1 below.

Line 1 – Enter all trade or business income. See Part IV for the definition of trade or business income.

Line 2 – If your business is located entirely within the LAMBRA, enter 1.

This percentage is the apportionment percentage computed by the entity using Worksheet IV, Section A, and represents the percentage of the entity's business income attributable to the LAMBRA.

Line 6a – Compute the tax as if the LAMBRA taxable income represented all of your taxable income.

Individuals

Use the tax table or tax rate schedule in your tax booklet for your filing status.

Exempt organizations

Use the applicable tax rate in your tax booklet.

Corporations and S Corporations

Use the applicable tax rate.

Example: (Determination of LAMBRA Business Income for Shareholders, Partners, or Members of Pass-Through Entities)

John Anderson is vice president of ABC, Inc., an S corporation that has two locations: one within the LAMBRA and one outside the LAMBRA. Eighty percent (80%) of the S corporation's business is attributable to the LAMBRA.

Note: This percentage was determined by ABC, Inc. using Worksheet IV, Section A, when ABC's California S corporation return (Form 100S) was prepared. John divides his time equally (50/50) between the two offices of ABC, Inc.

Jackie Anderson (John's spouse) works for ABC, Inc. at its office located within the LAMBRA.

John and Jackie Anderson have the following items of California income and expense for the 2005 tax year:

John's salary from ABC, Inc. \$100,000
 Jackie's salary from ABC, Inc. 75,000
 Interest on savings account 1,000
 Dividends 3,000
 Schedule K-1 (100S) from ABC, Inc.:
 Ordinary income 40,000
 LAMBRA business expense
 deduction (5,000)*
 John's unreimbursed employee
 expenses from federal Schedule A . . (2,000)

*The LAMBRA business expense deduction is a separately stated item on Schedule K-1 (100S), line 8.

The Anderson's LAMBRA business income (total amount to be reported on line 3) is computed as follows:

John's LAMBRA salary
 (\$100,000 x 50%) \$50,000
 Jackie's LAMBRA salary
 (\$75,000 x 100%) 75,000
 Pass-through ordinary income from
 ABC, Inc. (\$40,000 x 80%) 32,000
 LAMBRA business expense
 deduction from ABC, Inc. (5,000)
 John's unreimbursed employee
 business expenses
 (2,000 x 50%) (1,000)
 Total LAMBRA business income
 (Schedule Z, Part I, line 3) \$151,000

Note: The standard deduction and personal or dependency exemptions are not included in the computation of LAMBRA business income since they are not related to trade or business activities.

John and Jackie must compute the tax (to be entered on Schedule Z, Part I, line 6a) on the total LAMBRA business income of \$151,000 (as if it represents all of their income). Using the instructions on their personal income tax return for filing status married filing jointly, the 2006 tax computed on \$151,000 is \$9,786.

Line 6b – Corporations and S corporations

If the amount on line 6b is the minimum franchise tax (\$800), you cannot use your LAMBRA credits this year. You should complete Part IV of the worksheet to compute the amount of credit carryover.

Part II

Use Part II of Schedule Z if you are a corporation, individual, estate, or trust.

Corporations and S corporations that are subject to paying only the minimum franchise tax, go to Part IV.

Line 8A, column (e) – Enter the amount from line 7. This is the amount of limitation based on the tax on LAMBRA business income.

Line 8A, column (f) – Enter the amount of credit that is used on Schedule P (100, 100W, 540, 540NR, or 541), column (b). The amount cannot be greater than the amount on line 8A, column (e) or the amount computed on line 8B, column (d). Enter this amount on form FTB 3807, Side 1, line 2a.

Line 8B, column (b) – Enter the amount of the current year credit that was computed on Worksheet I, Section A, line 6.

Line 8B, column (c) – Enter the amount of the total prior year carryover of the credit. This is the amount of credit that was previously computed on Worksheet I, Section A in the prior year, minus the amount that was allowed to be taken on the prior year return.

Line 8B, column (d) – Add the amount of the current year credit on line 8B, column (b) and the amount of the total prior year carryover on line 8B, column (c).

Line 8B, column (e) – Compare the amounts on line 8A, column (e) and line 8A, column (f). Enter the smaller amount.

Line 8B, column (g) – Subtract the amount on line 8B, column (e) from the amount on line 8B, column (d). Enter the result on line 8B, column (g). This is the amount of credit that can be carried over to future years.

Example: Part II

Assume the ABC Business has \$8,000 of tax. The business computed a credit limitation based on LAMBRA business income of \$7,000 on Schedule Z, line 5. The business has the following credits:

Hiring credit — \$ 500
 Sales or use tax credit — \$9,000

Schedule Z, Part II would be computed as follows:

Part II Limitation of Credits for Corporations, Individuals, Estates, and Trusts.

	(a) Credit name	(b) Credit amount	(c) Total prior year carryover	(d) Total credit col. (b) plus col. (c)	(e) Limitation based on LAMBRA business income	(f) Used on Schedule P can never be greater than col. (d) or col. (e)	(g) Carryover col. (d) minus col. (e)
8 Hiring credit	A				7,000	500	
	B	500	—0—	500	500		—0—
9 Sales or use tax credit	A				6,500	6,500	
	B	9,000	—0—	9,000	6,500		2,500

Note: This carryover includes both the Schedule P (100, 100W, 540, 540NR, or 541) limitation and the limitation based on LAMBRA business income.

Line 9A, column (e) – Subtract the amount on line 8B, column (e) from the amount on line 8A, column (e). If the result is zero, your remaining credits are limited and must be carried over to future years. In this case, enter the amount from line 9B, column (d) on line 9B, column (g).

Line 9A, column (f) – Enter the amount of credit that is used on Schedule P (100, 100W, 540, 540NR, or 541), column (b). The amount cannot be greater than the amount on line 9A, column (e) or the amount computed on line 9B, column (d). Enter this amount on form FTB 3807, Side 1, line 2c.

Line 9B, column (b) – Enter the amount of the current year credit that was computed on Worksheet II, Section A, line 2, column (c).

Line 9B, column (c) – Enter the amount of the total prior year carryover of the credit. This is the amount of credit that was previously computed on Worksheet II, Section A minus the amount that was allowed to be taken on the prior year return.

Line 9B, column (d) – Add the amount of the current year credit on line 9B, column (b) and the amount of the total prior year carryover on line 9B, column (c).

Line 9B, column (e) – Compare the amounts on line 9A, column (e) and line 9A, column (f). Enter the smaller amount.

Line 9B, column (g) – Subtract the amount on line 9B, column (e) from the amount on line 9B, column (d). Enter the result on line 9B, column (g). This is the amount of credit that can be carried over to future years. **Note:** This carryover includes both the Schedule P (100, 100W, 540, 540NR, or 541) limitation and the limitation based on LAMBRA business income.

Part III

Use Part III of Schedule Z only if you are an S corporation. Adjust Schedule C (100S) to reflect the LAMBRA business tax limitation (Part I, line 7) after completing this worksheet.

Line 10 and Line 11, column (b) – Enter the amount of current year credits (that were computed on Worksheet I and Worksheet II) in column (b) for line 10 and line 11, as applicable. Also include this amount on Form 100S, Schedule K, line 13.

Line 10 and Line 11, column (c) – Multiply the amount on line 10, column (b) and line 11, column (b) each by 1/3. Enter the result in column (c). The amounts in column (c) are the maximum amounts of the current year credits that may be used by the S corporation to offset its 1.5% entity-level tax (3.5% for financial S corporations). Also include this amount on Form 100S, Schedule C.

Line 10 and Line 11, column (d) – Enter the amount of the total prior year credit carryover. This is the amount of credit that was previously computed on the prior year Worksheet I or Worksheet II, minus the amount that was allowed to be taken on the prior year return.

Line 10 and Line 11, column (e) – Add the amounts of the current year credits in column (c) and the total prior year carryovers in column (d).

Line 10 and Line 11, column (f) – Enter the amount of credit that was used by the S corporation in the current year to offset its 1.5% entity-level tax (3.5% for financial S corporations). Enter the amount in column (f) for line 10 and line 11 on form FTB 3807, Side 1, line 2a and line 2c, as applicable.

Line 10 and Line 11, column (g) – Subtract the amount in column (f) for each line from the amounts in column (e). These are the amounts of credits that can be carried over to future years and used by the S corporation.

Part IV

Use Part IV of Schedule Z if you are a corporation or S corporation subject to paying only the minimum franchise tax.

Line 12 and Line 13, column (b) – Enter the amount of current year credits (that were computed on Worksheet I and Worksheet II) on line 12, column (b) and line 13, column (b), as applicable. S corporations may only enter 1/3 of the amounts from Worksheet I and Worksheet II.

Line 12 and Line 13, column (c) – Enter the amount of the total prior year carryover. These are the amounts of credits that were previously computed on Worksheet I and Worksheet II in the prior years, minus the amount that was allowed to be taken on the prior year return. S corporations may only enter 1/3 of the amounts from Worksheet I and Worksheet II.

Line 12 and Line 13, column (d) – Add the amounts in column (b) and column (c) for line 12 and line 13. These are the amounts of credits that can be carried over to future years.
